MY 2D ACTION-PLATFORMER GAME DESIGN PROJECT

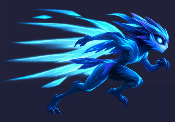
SHIFTBREAKER

MY GAME: RUN. TRANSFORM. BREAK THE NULL ENGINE.

THE STORY

In my game, a young spirit wakes in a fractured world controlled by the Null. To escape, the player shifts between speed, power, and flight - using momentum to overcome each obstacle.

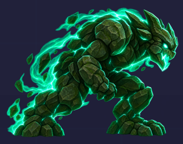
THREE FORMS. ONE ESCAPE.



SWIFT

BLUE - SPEED

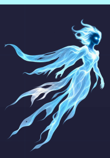
One form. One clear job.



TITAN

GREEN - POWER

One form. One clear job.

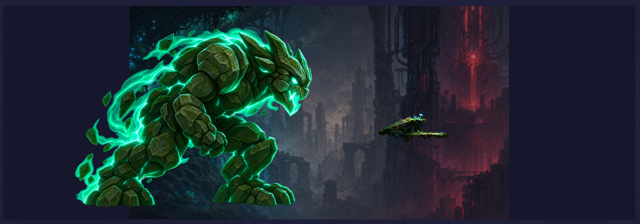


SKY

CYAN - FLIGHT

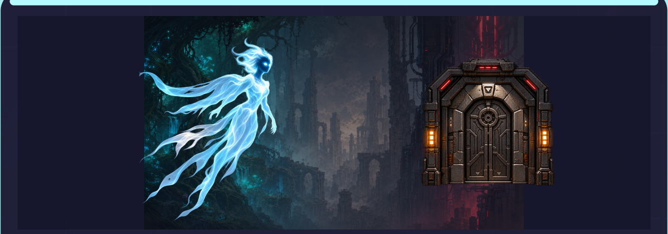
One form. One clear job.

MY SIGNATURE MECHANIC: MOMENTUM SHIFTS



IMPACT SHIFT

SWIFT -> TITAN



SOAR SHIFT

SWIFT -> SKY

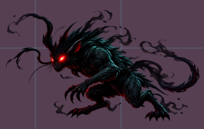
WHAT MAKES MY GAME SPECIAL?

I designed the player to combine forms at the right moment: sprint into Titan to smash a wall, jump into Sky to soar across a ravine, or fall from Sky into Titan for a Meteor Shift.

6 LEVELS | QUESTS | CHECKPOINTS | SHIFTER CRYSTALS | THE NULL ENGINE FINALE

HOW TO PLAY MY GAME

1 / 2 / 3	Transform into Swift, Titan, or Sky.
MOVE + SPACE	Run, jump, fly, and preserve your momentum.
SHIFT SMART	Save energy and discover the strongest combo for each challenge.



THE NULL

A copied enemy that turns your own forms into a puzzle.

SHIFTBREAKER - CREATED BY: [YOUR NAME] - A GAME ABOUT MASTERING CHANGE
