A 2D ACTION-PLATFORMER

SHIFTBREAKER

Run. Transform. Break the Null Engine.

THE THREE FORMS. ONE MOMENTUM-POWERED ESCAPE.

THE WORLD HAS FRACTURED

A world of ruins, machine corridors, and living energy.

THE PROBLEM

A hostile force called the Null copies the player's transformations and turns the world's systems against them.

THE GOAL

Travel through six unique zones, restore lost pathways, solve transformation puzzles, and destroy the Null Engine.

THE PLAYER'S JOURNEY

Shiftbreaker is designed as a fast, readable adventure. Every obstacle teaches a useful idea: speed, strength, flight, energy control, timing, or clever use of the Null.

CORE QUESTION: Can you master the right form at the right moment?

CHOOSE YOUR FORM

Each form has a clear strength, control style, and visual color.

SWIFT

BLUE - SPEED

Sprint, dash, and build momentum.

TITAN

GREEN - POWER

Break walls and slam weak floors.

SKY

CYAN - FLIGHT

Reach high routes and cross gaps.

Controls: 1 Swift 2 Titan 3 Sky Arrow keys / WASD Move Space Jump

MOMENTUM SHIFTING

The signature mechanic: carry your movement into the next form.

SOAR SHIFT

SWIFT -> SKY

Sprint, jump, then become Sky to cross a huge ravine.

IMPACT SHIFT

SWIFT -> TITAN

Build speed, transform, then smash through a reinforced wall.

METEOR SHIFT

SKY -> TITAN

Fall from above, transform, and ground-slam a weak floor.

Perfect Shifts use less energy and reward good timing.

SIX LEVELS. SIX IDEAS.

Every level introduces a different challenge instead of repeating one route.

01 THE OVERGROWTH
Learn Impact Shift and the first Swift routes.

02 THE RAVINE
A huge gap makes Soar Shift necessary.

03 THE RUINS
Collect three Energy Cores to restore the lift.

04 SHATTERED MACHINE
Timed lasers, crushers, switches, and doors.

05 NULL'S DOMAIN
Lure copied forms onto plates and through gates.

06 THE NULL ENGINE
Disable stabilizers, then finish with Meteor Shift.

ECHO MISSIONS AND DISCOVERY

Talk to Echoes to choose an optional level quest.

QUESTS

Each level gives different quest choices. Accept a mission to earn coins, health recovery, or energy rewards.

CHECKPOINTS

Fast checkpoints let players retry difficult combo sections without replaying the whole level.

MASTERY REWARDS

Coins, Shifter Crystals, perfect shifts, health, and completion time affect each level rank.

THE NULL ENGINE

The finale tests every form and every combo learned in the game.

THE NULL

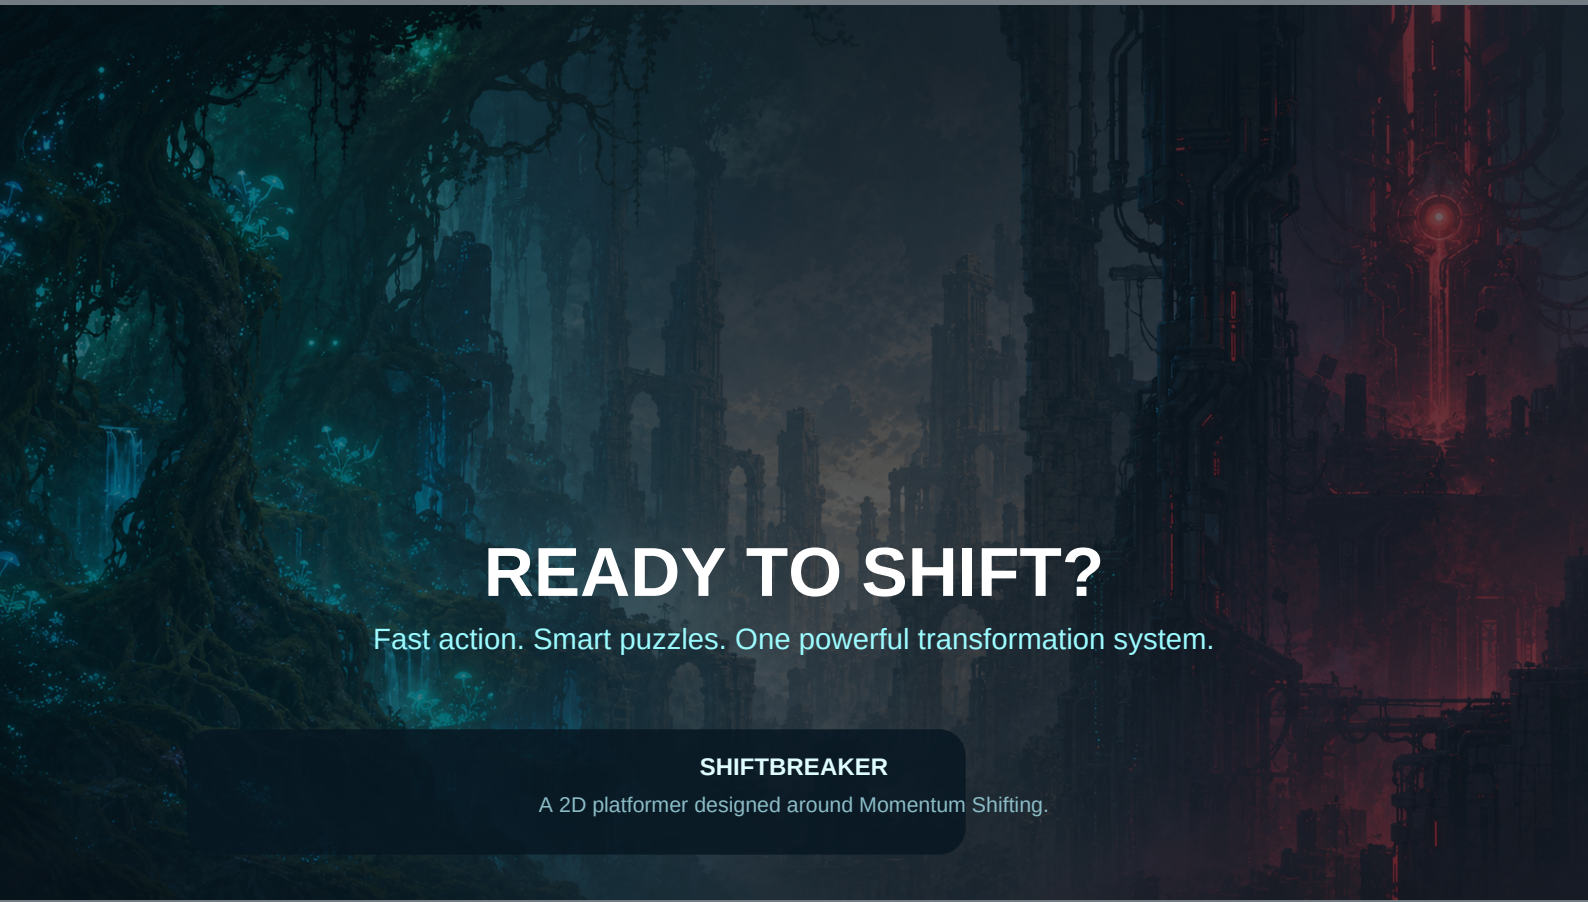

It copies Swift, Titan, and Sky. Each copied form behaves differently.

THE FINALE

Hit the stabilizers, soar above the Core, then Meteor Shift to destroy it.
